

THE CRIMES OF TULANE UNIVERSITY

Tulane University is an extremely dangerous center for covert operations of the United States. We want to go through a brief list of its past crimes. Tulane University is capable of controlling the local press in New Orleans. They do not dare to discuss anything which would be adverse to the University. Michael Trainer - a psychologist - found that out when he tried to locate people who had been tortured by Tulane when it was participating in the government's MK Ultra mind control project. He tried to put ads in the local newspapers seeking to interview anyone who had survived torture by Tulane. No newspaper would run the ads. They were terrified. However, today, in the age of the internet, it is no longer possible for Tulane to keep the truth about all its nefarious activities hidden. More and more information is becoming available.

TULANE UNIVERSITY'S INVOLVEMENT IN THE KENNEDY ASSASSINATION

When the government decided to murder President Kennedy, they set up three "kill zones". These were:

ZONE 1 - MIAMI

ZONE 2 - DALLAS

ZONE 3 - NEW ORLEANS

Something went wrong with Zone 1 and so activities switched to Zone 2 where Mr. Kennedy was successfully assassinated. However, if there had been a problem with Zone 2, New Orleans would have been used. Now, traditionally, the highest ranking government "spook" in the New Orleans area is the president of Tulane University. Consequently, the Tulane president was "brought into the loop" and attended planning sessions concerning the pending assassination. Therefore, Tulane had prior knowledge that the President would be killed. Also, we know from the documentary book, "Doctor Mary's Monkey" [doctormarysmonkey.com] that Lee Harvey Oswald and Jack Ruby had an association with Tulane University.

After President Kennedy was killed, Tulane participated in the cover up by abducting and brainwashing people who were thought to know too much. In the N1119 report in Period 5 I actually met some of these people. They were being held prisoner by Tulane psychiatry and one said he had been "ordered" to have a lobotomy to be performed by Dr. Heath. When he was taken away we never saw him again. Tulane also operated a secret prison on the seventh floor of its own hospital during that period. This may have been the main location for the MK Ultra experiments.

Therefore, to summarize:

1. Tulane had prior knowledge that the sitting US President would be killed.
2. Tulane participated in the planning of the assassination.

3. Tulane had an association with Lee Harvey Oswald.
4. Tulane helped cover up the truth about assassination after the fact by brainwashing witnesses.

Today, there are many internet sources of information on Tulane's darker side. Below is a short list of active links. However, if you are interested, there are many more to be found using internet searches.
